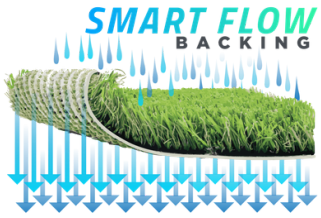
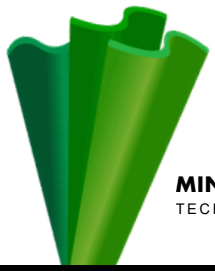
FEATURED BENEFITS

- **Non-Directional Appearance** – Blades provide the same natural appearance from all four sides of the turf, creating a consistent look from every viewing angle.
- **Infill Optional** – Ultra-high-bulk thatch provides built-in support to help the blades remain upright without infill, depending on the application.
- **Realistic Look & Texture** – Designed to closely replicate the appearance and texture of natural grass for a lush, authentic-looking lawn.





MINI S-BLADE
