Artificial Grass Accessory

Turf Claw® 75

Polyurethane Turf Adhesive (28 oz Tube)

Specs

28 oz tube; ideal for small repairs and seam touch-ups
Single-component, no mixing required
Fast grab time (1–3 hours depending on moisture)
100% solids, solvent-free formula
Low / no odor for improved handling
Green color
Designed for polyurethane-backed artificial turf systems
Use in well-ventilated areas; wear gloves and eye protection during application

Features

Turf Claw® 75 is a professional-grade, moisture-cured polyurethane adhesive designed for the installation and repair of synthetic turf. This single-component formula requires no mixing and delivers a strong, permanent bond for turf seams and small repair applications.

Engineered with controlled expansion properties, Turf Claw 75 penetrates turf backing to create an aggressive bond while maintaining a smooth surface finish. It performs reliably in a variety of climates and is suitable for bonding turf to seam tape, concrete, and asphalt.

For best results, apply in a well-ventilated area and follow proper safety precautions during handling.
