FEATURED BENEFITS

Non-Directional Appearance – Blades provide the same natural appearance from all four sides of the turf, creating a consistent look from every viewing angle.

Infill Optional – Ultra-high-bulk thatch provides built-in support to help the blades remain upright without infill, depending on the application.

Realistic Look & Texture – Designed to closely replicate the appearance and texture of natural grass for a lush, authentic-looking lawn.

MINI S-BLADE
TECHNOLOGY

PROTECTION THAT LIVES ON
